True or false

Jessica says the time on this analogue clock face is 5 minutes past 3. Do you agree? Explain your reasoning.

Jessica is incorrect because the blue minute hand is on the 3 which stands for 15 minutes past the hour. The red hand is the hour hand and is pointing at 1. So the time is a quarter past one or 1.15.

Draw the hands on the clock face so it shows the time a quarter past 4.

Draw the hands on the clock face so it shows 25 minutes to 6.

Draw the hands on the clock face so it shows 10.35.

Spicy

A train leaves Victoria station in London at a quarter to seven in the evening.

The train journey takes 55 minutes to arrive at Carshalton and another 10 minutes to arrive at Sutton, its final destination.

What time did the train arrive at Sutton?

Write the worded time, 24 hour digital time and draw the hands on the analogue clock to show the departure/arrival time.
