

L.O. To plot points and draw a triangle.

01.07.20

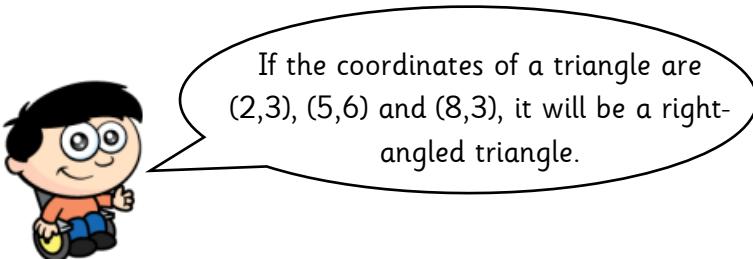

Layer 1 - Record the coordinates for these triangles and name them.

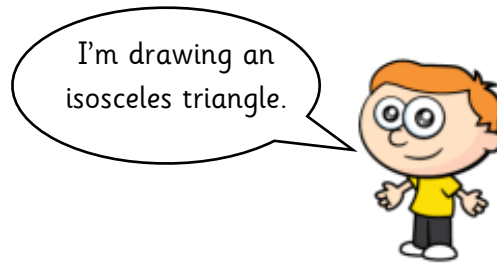

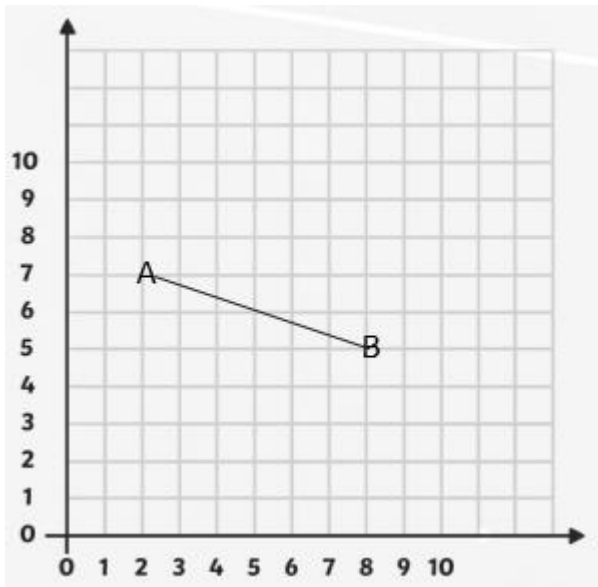

If you can print this sheet, plot the triangle with the coordinates (1,1), (1,9) and (6,2). What type of triangle is it?

Layer 2 - Do you agree or disagree? Explain your answer.

Layer 3 - Ray marks 2 points (A and B) on this coordinates grid and draws a line to join up the points.

What are the possible coordinates of C?

Greater Depth – How many triangles could you plot on this grid? Try to plot all the different types. If you can print this sheet, draw the triangles too.
